TASK 4- SORTING And LIMITIMG

Q1) List the top 5 latest projects.

Query:

```
SELECT project_id,client_id,project_name,project_description,start_dat,deadline
FROM project
ORDER BY start_date DESC
LIMIT 5;
```

Explanation:
This query retrieves all records from the project table and sorts them by start date in descending order. The LIMIT clause restricts the output to the five most recently started projects.

project 1

Enter a SQL expression to filter results (use Ctrl+Space)

	project_id	client_id	project_name	project_description	start_date	deadline
1	325	225	Renewable Energy	Solar monitoring system	2024-05-15	2025-03-01
2	320	220	Smart Parking	IoT-based parking solution	2024-05-10	2025-01-15
3	315	215	IoT Monitoring	Sensor-based tracking system	2024-05-05	2024-12-20
4	308	208	AI Chatbot	Automated customer support bot	2024-05-01	2024-12-01
5	324	224	Smart Factory	Automation and robotics	2024-04-25	2025-02-10

Q2) List the first 5 clients in alphabetical order.

Query:

```
SELECT client_id,client_fname,client_lname,client_phno,client_email
FROM client
ORDER BY client_fname ASC
LIMIT 5;
```

Explanation:
This query selects all records from the client table and orders them alphabetically by the client's first name. The LIMIT clause ensures that only the first five clients are displayed.

Enter a SQL expression to filter results (use Ctrl+Space)

	client_id	client_fname	client_lname	client_phno	client_email
1	225	Aditya	Raj	+91-7998877665	aditya.raj@gmail.com
2	201	Amit	Sharma	+91-9876543210	amit.sharma@gmail.com
3	208	Ananya	Sen	+91-7766554433	ananya.sen@gmail.com
4	211	Arjun	Kapoor	+91-9443322110	arjun.kapoor@gmail.com
5	218	Ayesha	Khan	+91-8665544332	ayesha.khan@yahoo.com

Q3) List the top 5 departments with the highest department ID.

Query:

```
SELECT dept_id,dept_name
FROM department
ORDER BY dept_id DESC
LIMIT 5;
```

Explanation:
This query retrieves all departments and sorts them by department ID in descending order. The LIMIT clause returns only the five departments with the highest department IDs.

SELECT * FROM department ORDER BY dep | Enter a SQ

	dept_id	dept_name
1	125	Training and Development
2	124	Internship Program
3	123	Directors
4	122	Senior Developers
5	121	Team Leads

Q4) List the oldest 5 projects.

Query:

```
SELECT project_id,client_id,project_name,project_description,start_date,deadline
FROM project
ORDER BY start_date ASC
LIMIT 5;
```

Explanation:
This query retrieves all project records and orders them by start date in ascending order. The LIMIT clause limits the result to the five earliest projects.

SELECT * FROM project ORDER BY start_da | Enter a SQL expression to filter results (use Ctrl+Space)

Grid | Text
